

Carex Small Base Quad Cane

HCPCS:

FIGURE A

FIGURE B

• Made with innovative technology and designed to provide you with maximum comfort, the Soft Grip Quad Cane has a lower center of gravity for increased stability and balance.
• Perfect for those who are independent enough to use a one-hand walking aid but still need the four-point stability that a quad cane provides.
• Soft Grip® derby handle reduces pressure on the wrist and is manufactured without natural rubber latex
• Height-adjustable with the push of a button
• Small base for easy maneuverability
• Height adjustment: 31" - 40"
• Weight capacity: 250 lb
• Retail Packaging
