ProBasics Three-Position Recliner, Blue

HCPCS:

• The PROBASICS® three-position recliner offers both comfort and durability for day room or patient room use.
• Featuring full recline, elevated footrest with elevated and full upright positions, this recliner provides maximum flexibility for users.
• Need to move the recliner? The convenient push bar on the back and four rolling casters let you glide the chair where itÃ¢??s needed! For user safety, the two rear steering casters can be locked to secure the chair in place.
• FEATURES
• Hide-away footrest folds completely below chair to make rising to a standing position easier
• Vinyl seat and back padding to help reduce bottoming out
• Adjustable height settings
• Rust resistant rear locking caster forks
• Easy-clean, blow-molded side panels can be fast with no tools, just press the pin
• 5 position, locking molded trays easily slide ON and OFF with built-in side storage when not in use
• Convenient overlap tray with high lip completes the chair and the tabs let you move the tray freely
