

## Intake Filter Silencer for Sunrise Units

HCPCS:

- The Intake Filter processes air as it enters the oxygen concentrator to provide patients with clean oxygen.
- It provides comfortable therapy, equipped with a silencer that absorbs sound and reduces noise on the inlet of the compressor.
- Cleans bacteria from air as it passes through the oxygen concentrator, providing patient with clean oxygen
- Reduces noise with included silencer
- Should be replaced frequently to keep oxygen concentrator running smoothly and to extend product life
- Designed for use with Sunrise units, but can also be used on the Sequal Integra 10LPM; comparable to #515DZ-605
- For cleaner air and a quieter oxygen concentrator, purchase the Intake Filter with Silencer.
