CPAP Pro Complete

HCPCS:

• The CPAP Pro Complete mask creates an exceptional seal on the nose without the need for straps or headgear.
• With a mouthpiece that snaps onto your upper teeth and holds two respiratory tubes with nasal puffs in perfect relation to your nose, leakage and irritation is eliminated regardless of sleep position.
• Silicone nasal puffs provide high-quality therapy without irritating nostrils
• Easy-to-form mouthpiece can be prepared at home and comfortably secures to upper teeth
• Adjustable hose clamps allow patient to adjust fit to their facial features and pressure against nostrils
• Foam diffusers surround exhalation ports for quiet operation
• Includes corrugated tubes that allow patient to move without disrupting air flow
• Can easily connect to all CPAP machines with Y Coupling
• Includes curved bracket for customization and adjustments
• For a CPAP mask that eliminates irritation without sacrificing performance, purchase the CPAP Pro Complete.
