MD by Drive Mini Quad Offset Cane

HCPCS:

• Enjoy Greater Stability Without Extra Bulk: Our walking cane with 4 prongs features a Mini Quad tip that provides a wide, supportive base that lets it stand on its ownwhile being 54% lighter than traditional large-base quad canes.
• Enhanced Comfort: The offset cane handle positions your hand and body weight directly in line with the shaft, for maximum stability and support. The quad canes cushioned handle offers a more comfortable grip for all-day use.
• Reliable Strength in a Lightweight Design: These canes for men and women are constructed from anodized aluminum for long-lasting durability and a walking stick thats easy to carry and maneuver.
• Adjustable for a Perfect Fit: 12 push-button height settings on this walking cane for women and men ensure comfort for users approximately 5′ to 6′5″.
• Keep Your Cane Readily Available: Wrist strap keeps your cane close at hand if you need to release your grip briefly to open a door or reach for something, or in the event of an accidental drop.
