- Learn More About The Benefit Of Weighted Blankets
- Calm your nerves, reduce anxiety, and sleep better with the Bed Buddy Weighted Blanket.
- Our breathable weighted blanket is made of premium glass beads to prevent leaking while the stitching keeps them in place to help control body temperature.
- Our Bed Buddy weighted blanket benefits users by mimicking a hug to reduce anxiety, provide a calming effect, and increase serotonin levels.
- Available in an adult-size (a 80" x 60", 17 lb weighted blanket) and a kid-size (a 41" x 60", 7 pound weighted blanket).
- Helps calm nerves and improves sleep.
- Weighted blankets use their heavyweight to mimic being held.
- This pressure helps increase serotonin which aids in reducing anxiety, calming nerves, and improving sleep quality.
- In essence, weighted blankets help you feel good.
- Keeps you cool by controlling body temperature.
- A common problem with most weight blankets is they can cause the user to get hot, fast.
