Nitro Cruise Wheelchair

HCPCS:

- Lightweight aluminum frame weighs just 28 lbs., delivering an easier lift for caregivers and easier self-propulsion for users
- Drive patented, seat-integrated adjustable depth (16"18") for a customized fit without complex setup
- Lightweight spoke wheels with treaded tires for added traction and control across varied surfaces
- Machine-washable, padded back cushion with removable foam lumbar and trunk support blocks
- Anti-tippers ship standard for added safety and are adjustable via the included wrench
- Available with either standard elevating legrests, or European-style swing-away footrests with ergonomic release lever, infinitely adjustable (no set holes)
- Footplates on swing-away footrests feature heel loops, adjustable angle, and reverse positioning for added heel or toe room
- Quick-release rear axles for fast breakdown, loading, and storage
- Fold-down backrest for compact storage
- Swing-back, height, and depth-adjustable armrests
- Mounting bracket included for compatibility with Nitro Sprint accessories
