

Roscoe nebGO Handheld Mesh Nebulizer

HCPCS:

- The Roscoe nebGO is your portable nebulizer solution for on-the-go aerosol treatments.
- With a small, lightweight design that comfortably fits in the palm of your hand, it delivers powerful, quiet, and discreet neb treatments anywhere using vibrating mesh technology.
- Weighing in at just 3.7 ounces (with batteries), the nebGO provides quick, effective treatments without the bulk of a standard tabletop compressor.
- The system includes the main unit, medication cup, mouthpiece, adult mask, pediatric mask, lanyard, USB cord, power plug, stylish hard shell carrying case, and user manual.
