Introducing the smarter alternative to painful traditional crutches. The Air-Crutch combines clinical precision with user-first comfort, featuring patented Airgonomic underarm cushions with 57.9 % thicker padding and 21% more surface area than standard crutches.

- Airgonomic Comfort: Patented underarm cushions with innovative air bladders disperse pressure where users feel it most.
- Ergonomic & Adjustable Hand Grip: Naturally angled, soft gel handles reduce hand and wrist strain by 27.6%.
- Improved Traction & Stability: Patented FlexGrip Air Tips grip the earth and compress to soften every step.
- Fits Most Users: Easy to adjust for individuals 4'7" - 6'7" and an underarm height range of 39.7" to 62.8".
