ProBasics Two-Button Folding Walker with Wheels and Roll-Up Seat, 2/CS

HCPCS:

• ProBasics Two-Button Folding Walker with roll-up seat provides patients with the convenience of a rollator and the functionality of a walker.
• Nylon seat hooks on frame for a secure seat.
• When not in use, it rolls up and stores on the frame allowing for a full stride.
• Features easy-to-use push button mechanisms allowing each side to operate independently for movement through narrow spaces.
• Supports patient weights up to 300 pounds.
• Durable nylon roll-up seat that can be placed on handy hooks when not in use
• Adjustable height settings
• Easy-to-use push button mechanisms
• Front cross braces near top of walker to allow for full stride
• Each side operates independently to allow for easy movement through narrow spaces
• Vinyl contoured hand grip for added comfort
