TENS 7000 2" x 2" Electrodes

HCPCS:

• Compatible with most electrotherapy stimulation devices. Electrotherapy pads are compatible with most TENS units, EMS, and other electrotherapy stimulation devices. These TENS patches are approved for use with the TENS 7000, TENS 7000 To Go, TENS 3000 & InTENSity models including 10 12 Twin Stim III, Twin Stim Plus 3rd Edition, Twin Stim IV, IF Combo, IF Combo II, Select Combo I & II, Micro Combo 5000 Hybrid, and InTENSity at Home. Fits universal 2.0mm pig-tail lead wires (used for most devices)
• Comes in either 16 or 48 pack. Select from either four packs of four (16 total) or 14 packs of four (48 total) TENS EMS electrode pads. Each electrode pad for TENS is 2" x 2" to provide a strong current of pain relief.
• Over-the-counter approved. TENS unit patches are available OTC with no prescription needed. Our electrodes for TENS units offer a comfortable and flexible fit that is non-invasive.
• Pre-gelled and does not contain latex. Each medical-grade TENS electrode is pre-gelled to provide a comfortable and flexible fit. They'll stick well to your body without being awkward or uncomfortable to remove. No harmful latex is in these disposable TENS electrodes, making them safe and effective.
• Lasts longer than most TENS therapy replacement pads. With many replacement electrodes for TENS units, the stickiness does not last long. Our premium TENS unit small pads last longer, feel better and deliver a strong current for pain relief.
