• Active mattress replacement system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
• Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
• Control unit offers 10 minute cycles when alternating and can also be used in static mode
• Adjustable patient weight settings allow for optimal immersion and patient comfort & compliance
• Audio and Visual alarm alerts when air pressure is low
• System includes 17 individual air cells over a 3" foam base for power outage protection
• Pillow feature provides head stability & comfort
• 5" deep air cells are easily removed for convenient servicing
• Removable quilted Nylon cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
• CPR valve allows for rapid deflation
• Tubing quickly and easily disconnects with EZ Lock/Quick Release design
