UltraTENS II Portable Ultrasound and TENS Combo

HCPCS:

• The UltraTENS II combines the two most proven modalities, ultrasound and TENS technology for pain relief into one compact sleek device.
• Deep heat from the therapeutic ultrasound and TENS therapy can be used simultaneously to help patients treat chronic and acute muscular pain.
• Our new innovative design features an increased duty cycle of 50% with three easy-to-use mode presets, plus 30 mA of TENS therapy.
• This versatile portable unit comes with carry case, AC adapter and ultrasound gel for office or mobile use.
• Combines therapeutic ultrasound and TENS for patients needing stronger therapy
• Ergonomically designed 4 cm² aluminum soundhead
• Features 1 MHz frequency with 3 power levels and 30 mA of TENS therapy for deep therapeutic treatment
• Beam Non-uniformity Ratio (BNR) 5:1 max
• Small, unique design that is easy to operate and portable
• Three treatment times (5 min, 10 min or 15 min)
• Automatic power shut-off after 10 minutes
