Contour CPAPMax Pillow

HCPCS:

• The CPAPMax Pillow can help reduce CPAP mask leaks, reduce mask pressure and helps increase comfort for a good night's rest.
• The larger cutouts on either side allow the user to sleep on either side without worrying about leaks.
• Reduces mask interference, shifting and leaks
• Adjustable pillow height switched from regular to extra thick
• Minimizes facial pressure, sores and bruising
• Improve sleep comfort and CPAP compliance
• Ventilated foam is cool, breathes and reduces perspiration
• Ergonomic center cradles head and improves airway alignment
• Front edge matched the natural curve of neck and shoulders
• Pressure free zones prevent interference between mask and pillow
• CoolTech 3D Mesh Cover
