Carex Sitz Bath

HCPCS:

• The Carex Sitz Bath is an over-the-toilet perineal soaking bath that provides relief and hygiene for patients recovering from episiotomies, hemorrhoids and other conditions in the genital and anal areas.
• It fits all standard toilets and includes a 2.1-quart basin, 2-quart solution bag, and 5 foot tube with a convenient on/off flow control clip.
• Ideal for use in hemorrhoid treatment, episiotomy recovery and other conditions in the anal and genital areas
• Wide, contoured edges provide added comfort
• Vents in bowl help prevent accidental overflow
• Durable and easy to clean
• Fits all standard toilets
• Not for use in autoclave
• Retail Packaging
