TENS 7000 2" x 4" Electrodes

HCPCS:

• Keep your TENS sessions going with the number one TENS unit brand on the market. Since 2008, TENS 7000 has been providing pain relief to millions of users with electrotherapy. Our TENS electrode pads are designed to provide an even distribution of electrotherapy, last longer than standard TENS patches, and stay flexible when moving. The larger size 2" x 4" pads offer more coverage for the targeted area. They come with a pig-tail style lead wire interface compatible with most TENS/EMS units.
• Comes with 16 2" x 4" electrotherapy pads.
• Last longer than other pads.
• Pre-gelled and flexible.
• Safe and not made with natural rubber latex.
• Works with most TENS devices.
