PREM. CHIN STRAP RUBY RED

HCPCS:

• The Carex Premium Extra-wide CPAP Chin Strap presents an ideal solution for those who may experience problems associated with open mouth-breathing during sleep therapy.
• Over time CPAP headgear and chinstraps may need occasional replacement as they become stretched or lose elasticity over time.
• For optimal comfort and effectiveness of your CPAP treatment, purchase a new chinstrap for your mask today.
• Vertical design keeps you from waking up.
• The apnea chin strap's vertical design helps reduce the potential of sleep-interrupting events.
• That means you'll not only stay asleep but sleep better.
• Keeps you from snoring.
• Snoring is a common struggle that many with sleep apnea face.
• The snoring head strap correctly supports the chin to prevent you from snoring.
• If you're looking for a chin strap to stop snoring, this is it.
• Features a chin cup for comfortable support.
