AIRgel Full Face Replacement Cushion, Medium

HCPCS:

• Sleepnet's Ascend CPAP Mask Series features advanced cushion technology with the replaceable AIRgel cushion.
• For added convenience, patients can replace the cushion without having to replace the whole mask.
• The patented AIRgel provides maximum comfort and minimum weight helping to reduce pressure points and skin irritation for better patient compliance.
• The flexible spacebar has a unique bendable design that provides the patient with superior stability without contacting the skin.
• Detachable cushion allows you to replace your cushion without replacing your entire mask.
• Flexible spacebar is designed to provide superior stability without contacting the skin
• Active headgear connector moves when the patient moves to help maintain an effective seal
• Available in three sizes (small, medium and large) with simple and breathable quick-release EZFit headgear
• 360-degree Rotating Swivel for optimal tube positioning and easier mobility
• Patented AIRgel with an ergonomic design and luxurious feel reduces pressure while maintaining an effective seal
• Available in your choice of Full Face or Nasal Mask
