The M+D by Drive Comfort-Plus Offset Cane combines a cushioned offset handle, 12 adjustable height settings (28"39"), and a high-traction tip to provide comfortable, personalized support and stability. A wall-rest grip and secure wrist strap add everyday convenience, helping users move more safely and confidently at home or on the go.

• The Comfort-Plus offset handle cane design redistributes weight for more comfortable use, provides balance support, and encourages correct posture.
• Ergonomic cushioned handle on these walking canes for men and women provides extended comfort and features a unique design that allows it to rest against walls without slipping.
• The durable treaded rubber Flex-Grip tip on our cane provides superior traction for increased stability indoors and out.
• Our adjustable walking cane gives you a perfect fit with 12 height adjustment settings (28"39") to accommodate users from 5' to 6'5.
• Included wrist strap keeps your walking cane within reach and allows for brief hands-free use to open doors or hold something without setting it down.
