FIGURE D

• Thermostatic mixing valve - Provides an anti-scald protection that dispenses 15 gallons per minute for fast tub fill
• Built-in disinfection system - The most time-efficient solution for disinfection of the bath's external surfaces and minimizes the risk of cross-infection
• The built-in disinfection system cabinet is conveniently located on the top side of the tub for easy access
• The lockable cabinet provides a secure place for cleaning supplies and disinfectants
• Handheld shower wand - Hair and upper body washing can be used at the same time the tub is filling
• Water temperature display - Monitors tub-fill and shower wand temperatures
• 3/4" supply lines - Constructed of stainless steel mesh clad
• Lap and shoulder harness - Used for resident safety
• Secondary door lock - Prevents accidental door opening when in use
• The CleanDrive Air Spa System - Variable speeds and pulse modes designed to enhance the bathing experience for the resident and caregiver
