• Thermostatic mixing valve - Provides an anti-scald protection that dispenses 15 gallons per minute for fast tub fill
• Built-in disinfection system - The most time-efficient solution for disinfection of the baths external surfaces and minimizes the risk of cross-infection
• The built-in disinfection system cabinet is conveniently located on the back end of the tub for easy access
• The lockable cabinet provides a secure place for cleaning supplies and disinfectants
• Handheld shower wand - Hair and upper body washing can be used at the same time the tub is filling
• Water temperature display - Monitors tub-fill and shower wand temperatures
• 3/4" supply lines - Constructed of stainless steel mesh clad
• Three plumbing configurations - to choose from side, front, or island configuration
• The island configuration allows 360° unobstructed access for the caregiver and with no visible hook-ups or cords, the Saratoga Springs Bathing System will give the bathing area the look of a luxury spa
• The CleanDrive Air Spa System - Variable speeds and pulse modes designed to enhance the bathing experience for the resident and caregiver
