- The new Drive Commode Liners are a single-use medical device to be positioned over a commode. These Commode Liners feature an absorbent powder which reduces splashing and eliminates odor. The new Drive liners are a convenient solution for cleaning and removing the waste from a commode. These highly absorbent liners can hold up to two quarts of liquid. The Commode Liners feature tie handles for easy and quick disposal. They come with a dispensing package for easy transport and storage. The new Commode Pail Liners provides comfort and dignity to the patient and patient's family!

- Holds up to 2 quarts or 64 ounces of liquids
- Avoid spills and splashes
- Commode liner can be used for multiple uses
