

ASCENT XR ROLLATOR, COBALT BLUE

HCPCS:

- Features:
- Lightweight, Aluminum frame with integrated suspension system is designed for durability and years of worry free use.
- 10-inch front and 8-inch rear heavy-duty wheels with black nonmarring, soft-grip tires to traverse almost any terrain.
- Ergonomic handles with top-down hidden braking system; Adjustable height in one-inch increments from 36- 42.5 with audible click setting.
- Comes with a 24 x 13 thickly padded seat with a handle to fold and unfold side-to-side quickly and easily.
- This allows for the rollator to maneuver through narrow hallways and doors.
- Attractive front mesh tote attaches to the front of the frame for carrying personal belongings.
- It is easily attached and detached and can double as a shoulder bag when necessary.
- Folds up quickly and easily for transport or storage.
- Can easily fit in vehicles, storage closet, or public transport.
- WARNING: This product can expose you to chemicals including Di(2-ethylhexyl)phthalate (DEHP), which is known to the State of California to cause cancer or birth defects or other reproductive harm.
