Airgo Aluminum Etched Cane

HCPCS:

FIGURE A

FIGURE B

- Our aluminum etched canes are not only lightweight they really stand out with their attractive etched tubing design
- They combine quality with the latest manufacturing technologies to create a cane that's as functional as it is fabulous
- These canes also feature a comfortable foam handle with a wrist strap for extra security and are adjustable in length
- Easy push-button adjustments with anti-rattle lock-nut
- Recommended for patients up to 6′ 6″
