

ProBasics Aluminum Height Adjustable Rollator

HCPCS:

- The stylish ProBasics Deluxe Height Adjustable Aluminum Rollator features a unique design allowing the user to adjust the seat and handle height to their specifications for maximum comfort and universal fit (adjusts from junior to adult size with one rollator).
- This lightweight rollator features easy-to-operate ergonomic hand brakes and 8-inch wheels for great maneuverability and stability.
- A seamless padded flip-up seat with zipper compartment and large nylon storage pouch keeps belongings private and protected.
- Ergonomic handles with loop-style brakes are adjustable in one-inch increments from 30" - 38" with self-threading knobs
- Height adjustments on frame allows seat height to be adjusted in one-inch increments from 18" to 22"
- Comes with a padded flip-up seat with zipper pouch for storage of personal items and added security
- Additional roomy and convenient storage pouch attaches to frame easily and keeps larger belongings protected
- Removable padded curved backrest is equipped with a hinge so it can flip up for easy storage
- 8-inch non-marring black wheels with soft grip tires glide on almost any surface
- Lightweight aluminum frame is durable for years of worry-free use
- Folds up easily for easy transport and storage
