ProBasics Bariatric Quad Cane, Small Base (Black),

HCPCS:

• ProBasics Quad Canes feature a unique four-point design which allows for greater weight-bearing and stability than a single-point cane.
• The handle rotates allowing for a proper fit with right or left hand use.
• Small and large base models available in black finish with a limited lifetime warranty.
• Unique four-point design allows for greater weight bearing and stability than a single-point cane
• Non-skid rubber tips on all four feet enhance durability for long term use
• Small base design allows for easier maneuverability while the large base design provides more stability
• Handle rotates for left or right hand use
• Quad canes stand up on their own when not in use
• Easy push button height adjustment in 1-inch increments with a locking, anti-rattle ring allowing for quick, safe adjustment
• Comfortable, contoured vinyl handle with sculpted grip reduces chance of slippage
• Lightweight aluminum upper shaft with welded steel base
