

Alex Orthopedic Bed Wedge, Blue Cover

HCPCS:

- The Alex Orthopedic Bed Wedge is your multipurpose sleeping solution.
- The gradual incline of a bed wedge raises your head and shoulders which alleviates a number of symptoms related to the following conditions: acid reflux, GERD, heartburn, respiratory issues, circulatory issues, and back and/or neck pain.
- Some even see improvement with snoring when using the inclined sleeping surface of a bed wedge.
- This bed wedge also works great for those with ankle and or foot injuries, so the injury can be comfortably elevated.
- This comfortable and high-quality foam offers firm support and is made to last.
- Firm polyurethane foam
- Used to elevate the head for breathing comfort, circulation, and pressure relief
- Also used to elevate the feet for relief of swelling
- Cover has zipper closure for easy removing and washing
- Doctor recommended for relief of hiatal hernia
