Thera-Med Professional Heating Pad (King)

HCPCS:

• The Thera-Med® Professional Dual Moist-Dry Heating Pad offers dual mode (moist/dry) heat options for optimal therapy.
• Its four heat settings allow you to control your own therapy with a simple press of a button.
• The moist heat option provides deep penetrating relief from sore, stiff muscles, while the dry option provides a comforting warm treatment.
• The unique pad design delivers a consistent therapeutic heat in the recommended range and eliminates any spikes to maintain an even comfortable level at all times.
• For added safety, the auto shut-off feature turns the pad off after 40 minutes of use.
• The removable ultra-soft cover is machine washable.
• Dual application - can be used dry or moist with dampened sponge insert
• Flexible pad with extra-soft machine washable cover (100% polyester) for a comfortable feel
• Four heat settings - warm, low, medium and high
• Ergonomically designed hand controller with simple one-button operation and color-coded LED indicators
• 40 minute auto shut-off feature
