

TENS CELL 9V Super Alkaline Battery

HCPCS:

- Our 9V Super Alkaline Batteries are made of high-quality material for consistent power and durability.
- They were specifically designed for TENS units but can be used by other devices that require standard 9V batteries.
- Specifically created for TENS units, which are used for pain management and electrical muscle stimulation, but also work great as household batteries.
- Can be used with smoke detectors, lamps, and regular household appliances
- Engineered for daily use; provides long-lasting power before you must replace them
- Will guarantee consistent power output to get the most out of your TENS device
- No leakage, standardized sizing, and premium packaging
- 12/box
- For long-lasting, consistent power, purchase your TENS CELL 9V Super Alkaline Battery.
