Suction Setup Kit

HCPCS:

• The Suction Setup Kit allows users to conveniently replace all necessary parts in their suction machine at once.
• It includes a yankauer with bulb tip and control vent, replacement elbow, bacteria filter, 800ml reusable collection jar, 6' tubing and 14" vinyl tubing.
• Each item in the kit can also be purchased separately if desired:
• Bulb-tip Yankauer - #55K86V
• Elbow - #ROS-610E
• Bacteria Filter - #ILB-38
• Collection Jar - #1160B-1
• 6' Tubing - #55N56A
• 14" Tubing - #196472-14
• To keep your portable suction machine performing optimally, replace its parts regularly and easily with the Roscoe Suction Kit.
